* [REDACTED] Comment: The Cunnersdorf-Possendorf line, which is 15 km long, is of only local importance. It is believed that the line will be dismantled for the purpose of obtaining rail material urgently required elsewhere. The Duerroehrsdorf-Weissig-Buehlau line, which is 40 km long, is only of local importance. This line will probably also be dismantled. The Untermarkgruen railroad station in the uranium ore mining district, which is a restricted zone, is on the single track Oelsnitz/Vogtland-Lottengruen-Falkenstein railroad line. There is a possibility that a section of this line will also be dismantled.
